PROFILE

AI Automation Expert and Consultant with over three years of experience helping businesses, creators, and entrepreneurs apply artificial intelligence to automate workflows, build digital products, produce high-performing content, and improve business operations. Worked with 30+ clients, supported eight businesses, trained over 1,000 students, generated 100M+ views, and helped grow pages from zero to 100,000+ followers and subscribers.

WORK EXPERIENCE

CY ACADEMY	2023 - PRESENT
Founder & Lead AI Consultant	
- Consulted for 30+ clients on AI adoption, automation, digital product development, and content strategy. - Built AI-powered websites, landing pages, web applications, SaaS products, and e-commerce solutions. - Created UGC ads, commercial videos, product videos, music videos, movie trailers, short films, AI podcasts, and faceless YouTube content. - Developed AI-driven growth strategies that contributed to more than 100 million views across multiple platforms. - Helped grow social media pages from zero to over 100,000 followers and subscribers. - Supported eight businesses with practical AI systems for marketing, content production, and business growth. - Designed and delivered workshops, courses, and mentorship programs for more than 1,000 students.	

KEY ACHIEVEMENTS

- 30+ clients served across consulting, content, automation, and product development.
- 100M+ views generated through AI content and personal digital platforms.
- 1,000+ students trained and mentored in AI tools and business applications.
- Social media pages grown from 0 to 100,000+ followers and subscribers.
- Eight businesses supported with AI-powered marketing, content, and growth systems.

SELECTED PROJECT

NETCART

PRE-LAUNCH

Founder & AI Project Lead

Netcart is an e-commerce shopping and delivery platform designed to connect customers with stores and delivery services through one digital ecosystem.

- Led a team that built a fully functional e-commerce and delivery application in five weeks using AI-assisted development.
- Managed product planning, design direction, development, testing, content strategy, and launch preparation.
- Produced launch-ready UGC advertisements and promotional assets alongside product development.
- Used AI tools to accelerate execution, improve creative production, and coordinate the overall workflow.

TRAINING & MENTORSHIP

- Delivered AI workshops and practical training sessions for creators, entrepreneurs, and professionals.
- Built courses covering AI content creation, automation, digital business, and productivity.
- Mentored more than 1,000 students on applying AI tools to real projects and business opportunities.
- Helped learners move from basic tool usage to practical implementation and monetization.

PROFESSIONAL VALUE

I combine AI strategy, content creation, product development, and business execution. My strength is not only recommending AI tools, but turning ideas into working systems, digital products, launch campaigns, and measurable growth. Building Netcart in five weeks while preparing its UGC launch content demonstrates my ability to lead fast-moving, multidisciplinary AI projects from concept to execution.
